

on the GREEN

A weekly publication for Gallaudet staff and faculty

February 14, 1983 Vol. 13, No. 17

Students look at a painting of race horses by Bill Cumming in the Learning Center. It's part of an exhibit from the Longacres Collection that will be on display through April.

Pres. candidates visit Gallaudet

Three of the candidates for the new president of Gallaudet College have been invited by the Presidential Search Committee to come to campus for further interviews and to meet people on Kendall Green.

The first visitor to Gallaudet will be Dr. Craig Smith, formerly with the Chrysler Corporation and now the director of the Foundation for Freedom of Expression in D.C. He will be here this Monday and Tuesday, Feb. 14 and 15. A get-acquainted hour to which all faculty and staff are invited was scheduled for Feb. 14 at 3 p.m. in the Ely Center Atrium.

A second candidate, Dr. W. Lloyd Johns, will be at Gallaudet Feb. 21 and 22. Dr. Johns is currently the president of California State University at Sacramento. A get-acquainted hour will be held Feb. 21 at 3 p.m. in the Ely Atrium.

The third candidate, Dr. Robert Frisina, is the senior vice president of the Rochester Institute of Technology in Rochester, NY. He will be at Gallaudet Feb. 23 and 24, and faculty and staff are invited to meet him on Feb. 23 at 3 p.m. in the Ely Atrium.

It is expected that the Board of Trustees will choose the new president of Gallaudet at its March 24 meeting.

Direct Mail Campaign helps increase support for Gallaudet

The initial phase of a three-part Direct Mail Campaign conducted by the Development Office has added more than 900 new friends to Gallaudet's circle of private support.

During the first quarter of FY 1983 alone, the campaign helped to attract five times the total number of individuals other than alumni who gave to the College than throughout all of FY 1982. This response fulfills an important campaign objective to build a strong foundation of private support in the drive to obtain additional resources for the College.

Future mailings this month and in June will further benefit Gallaudet by winning more supporters and by providing unrestricted funds to meet urgent needs of the College. As Gallaudet prepares to respond to the

increased demand for services required by an exceptionally high student enrollment during the 1980s, due to the rubella epidemic of the 1960s, the increase in unrestricted resources is especially important. These gifts help offset budget cutbacks in public spending and provide the flexibility needed to meet unexpected emergencies.

The October appeal letter signed by President Edward C. Merrill, Jr. cited the academic and social enrichment experienced at Gallaudet by students Annette Reichman, '83 and Ken Bader, '84. The personal comments of both students in the letter reflects the difference that Gallaudet has made in their lives. Various gift opportunities corresponding to different giving levels are described in the direct mail package to enable contributors to understand how their gifts can be used.

The campaign (conducted in consultation with The Oram Group of New York and Washington, D.C.) is endorsed by Nanette Fabray MacDougall, who has joined her personal appeal to that of President Merrill. She has been a friend of Gallaudet for some time, having served as an honorary Trustee and established the MacDougall Creative Writing Award at the College with her son, Jamie, in memory of her husband, Randy MacDougall.

Future mailings will continue to educate Gallaudet's new friends about the College to stimulate their growing interest and support. Incorporated into the overall Development effort, this successful Direct Mail Campaign can increase the private support that helps preserve Gallaudet's tradition of service to hearing impaired people.

Alumni House may soon serve hard liquor

The upstairs dining area in the Alumni House may soon be serving hard liquor to its customers in addition to the beer and wine already available.

Gallaudet has applied to the Alcoholic Beverage Commission to obtain a license to serve hard liquor in the Alumni House. Dan Kirby, manager of Contracts and Purchasing, attended a hearing with the ABC Board Jan. 26. There were no protesters against the proposed license at the hearing, and Kirby expects to hear soon if the new liquor license is approved.

As more information becomes available, it will be announced in *On the Green*.

Students Annette Reichman and Ken Bader talk on the wall outside the Learning Center.

Williams dies

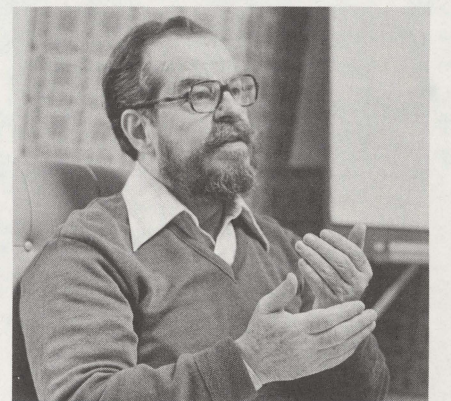

Dr. Clarence M. Williams, coordinator of Faculty and Graduate Student Research and professor of Education at Gallaudet, died early last Wednesday morning, Feb. 9. He was 64.

Dr. Williams was recuperating from heart surgery at the Washington Hospital Center at the time of his death.

A Gallaudet employee since 1973, Dr. Williams was associate dean for Research until 1978, when he became coordinator of Faculty and Graduate Student Research. He provided support to faculty members and graduate students in developing and conducting research. "He was always available to people," commented President Merrill.

Prior to coming to Gallaudet, Dr. Williams taught at the University of

Rochester in New York and at Michigan State University. Among his many activities, he was a member of the Board of Directors of the Gallaudet Press, *dsh Abstracts* and the International Visual Literacy Association.

Clarence M. Williams

Serendipity

Library Bits & Pieces

New periodicals

by Jeanne Karlecke

The Gallaudet College Library has added many new periodicals during the past year.

Two new magazines may be of interest to Home Economics majors. *American Journal of Clinical Nutrition* and *Contemporary Nutrition* offer advice on nutrition and contain many interesting articles on the basics of nutrition.

With all the new mothers on campus, three particular magazines should be well used in the Library: *Child and Family*, *Child Care Quarterly* and *Day Care and Early Education*. These three magazines offer articles on the pros and cons of day care centers, caring for your child from birth to adolescence, when and how to start your child's education, etc.

After many requests from the female students of Gallaudet, the Library has added *Playgirl* magazine. It is kept on reserve at the Central Desk.

Other magazines of interest to females at Gallaudet are *Working Woman* and *Signs: Journal of Women in Culture and Society*. *Working Woman* offers advice and information on how to survive in the working world, including tips on how to get ahead and how to get credit for your work. *Signs* offers such articles as "Sexual Assault and Harassment in the University: How to Establish a Grievance Procedure" and "Changing Attitudes Toward Work and Marriage."

Sociology and Psychology majors may be interested in *Community Mental Health Journal*, *Deviant Behavior*, *British Journal Educational Psychology* and *Adolescence*.

Science majors might be interested in scanning the following new periodicals: *National Science Foundation Bulletin*,

Science and Society and *Proceedings of the National Academy of Sciences*.

With all the interest in computers recently, some of the most popular new magazines added to the Library collection are: *Perspectives in Computing*, which is published by IBM and includes such information as how realistic and colorful relief maps can be produced on a display terminal, and applying Egyptian hieroglyphics to problems of computing; *Microcomputing*, in which readers will find such articles as designing and constructing your own video touch keypad, creating animated displays using Atari's graphic modes, programs for your home computer, how video display works, new software, new computer products, game reviews and software reviews: *Byte*, often called "The Small Systems Journal," in which you can find a review of different home computers, graphics for various home computers, how to write a module and a list of various clubs and newsletters which computer buffs may be interested in joining; and *Computers and Electronics* (formerly called *Popular Electronics*), which contains information on comparison of different word processors, testing business microcomputers, a guide to hard-disk technology, VHS cassette recorders and computer software and hardware reviews.

Other new magazines the Library has added include *Annals of the Association of American Geographers*, *Artificial Intelligence*, *Biblical Archaeologist*, *Educational Evaluation and Policy Analysis*, *Evaluation Review*, *The Lyric*, *Radio-Electronics* and *Campus Life*. Space does not permit a complete list of all new magazines added to the Library's collection, but readers can probably find something of interest in the Library's large collection of periodicals.

Stephanie Joyner is a Library technical assistant and Tom Harrington works in the Media area of the Library.

More TDDs available in area

Tracey Ballan Rattner, a 1980 Gallaudet graduate, now works at the Ticket Counter travel agency in Bethesda, MD and is available to help hearing impaired clients. Call 652-3020 TDD from 8 a.m.-5 p.m. Monday through Friday and from 11 a.m.-2 p.m. on Sunday. Ballan can be reached other times on 593-9537 TDD.

Dentist Eddie Longman now has a TDD for his practice at 833 S. Washington St. in Alexandria, VA. The TDD is 549-1340 and voice number is 549-1331. Office hours are Monday-Thursday from 8 a.m.-5 p.m., Friday from 8 a.m.-1 p.m. and Saturday from 8 a.m.-4 p.m.

Steven Rattner, DDS, now has TDDs at two locations to serve hearing impaired clients. The number of the office at 10555 Greenbelt Rd. in Lanham, MD is 390-6552 TDD, 390-6550 voice. The number at the 11500 Old Georgetown Rd. location in Rockville, MD is 984-9645 voice and TDD. Office hours at both locations are by appointment.

The Tri County Consumer Products Safety line is now available for hearing impaired persons to call regarding consumer products. The toll free number in Maryland is 1-800-492-8104 and the toll-free number in D.C. is 1-800-638-8270.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
02/15/83	NSF: Visiting Professorships for Women in Science and Engineering
02/28/83	CAID: Teacher and Unit Grants
03/01/83	NIMH: Research on the Prevention and Control of Rape
03/01/83	NCHSR: Health Services Research and Development Grants
03/07/83	ED: Women's Educational Equity Act Program
03/07/83	ED: Research in Education of the Handicapped (Assessment Projects Secondary Age/Level Projects)
03/15/83	NIE: Research Grants on Law and Government Studies in Education (Major Grants)

03/15/83	IMS: Institute of Museum Services Grant Program
03/17/83	ED: Student Initiated Research Program-Handicapped Education
03/17/83	ED: Handicapped Children's Services

NEH summer seminars

The National Endowment for the Humanities has announced April 1 as the deadline for applications to its Summer Seminars for College Teachers for 1983. There will be 84 seminars in various disciplines of the humanities, and through research, reflection and frequent discussions, it is hoped that seminar participants will increase the knowledge of the subjects they teach.

College teachers selected will receive a stipend of \$2,700 for travel expenses to and from the seminar location, books and other research expenses and living expenses for a tenure period of two full months. Individuals may apply for no more than two seminars in any one year. Awards will be announced on April 19.

For further information contact the Gallaudet Office of Sponsored Research or write to the Division of Fellowships and Seminars, National Endowment for the Humanities, Washington, D.C. 20506.

IBM reps talk with students

A Gallaudet graduate and a senior participating in a co-op program were among those IBM employees who came to Gallaudet Feb. 1 to share their experiences in the world of work with other Gallaudet students.

At the IBM Career Opportunities Evening, sponsored by the Counseling and Placement Center, other IBM employees, including Phil Bravin, discussed various areas of the organization, which has 325,000 employees. Bravin, a Gallaudet alumnus and member of Gallaudet's Board of Trustees, returned this year as a result of the success of last year's discussion on careers at IBM.

Dennis Dillahun, a 1982 Gallaudet graduate with a degree in Computer Math, was one of the students who attended last year's IBM meeting on campus. Hired by IBM last summer, he now works in Manassas designing and developing operating systems for the Navy.

Andy Lange, a senior at Gallaudet, is participating in a co-op program with IBM in Washington, D.C., where he finds challenge in data processing and accounts administration.

Bravin, an advisory systems requirements analyst with the Data Processing Division of IBM in White Plains, NY, drew applause from students when he said that IBM does not discriminate but selects the most qualified individual after interviews. Replying to one student who said he was uncertain about the expectations of a potential employer, Bravin said, "Put yourself in his shoes for a moment and ask yourself, 'what would I want of an employee?' and there's your answer."

Bravin also emphasized the support system for IBM employees which is geared to "meet the needs of the workers" and told students that there are IBM plants responsible for the research, development and manufacture of computer systems that need selling offices in many cities in order to reach customers. He also showed a short film, "Commitment" which portrayed the importance of thoroughness in a job.

Another IBM employee, Ray Munao, manager of Special Power Card Test Engineering, presented information about the IBM branch in Charlotte, NC and described a communications network that is currently used among banks, such as the automated, 24-hour tellers. He also said that students should not be intimidated by computers if they have not had much math, although a clear concept of logic is an advantage. IBM has a need for a diversified "support" group of people, from accountants and technical writers to chemists and physicists, he said.

Jim Hollis, manager of Systems Engineering with the Federal Systems Division, spoke about the IBM site in Manassas, VA, which does most of its work for defense programs. IBM in Manassas works mainly on navy products, hardware and software.

The event was hosted by Bill Haig, a placement officer with the Counseling and Placement Center. Both he and Harry Zarin spoke with students and encouraged them to attend another career awareness workshop in April, when three other companies will be on hand to discuss qualities desired by employers.

Advocacy Notes

The FY '83 continuing resolution

by Merv Garretson

Just before Christmas, on Dec. 21, 1982 President Reagan signed the FY 1983 continuing resolution even though it includes increased funding over FY 1982. The resolution is effective through the close of the fiscal year in September; however there is some speculation that the president may include a rescission request in his FY '84 budget as he did two years ago.

Funding for the Department of Education is \$5 billion over President Reagan's request and nearly \$400 million over what was appropriated during FY '82. A comparison of some of the programs in the Department of Education for 1982 and 1983:

Program	FY '83	FY '82
Gallaudet College	52.0 million	52.0 million
National Technical Institute for the Deaf	26.3 million	26.3 million
Howard University	145.2 million	145.2 million
Office for Civil Rights	44.8 million	44.8 million
P.L. 94-142	1.110 billion	1.068 billion
Rehabilitation Services	1.006 billion	923 million
P.L. 89-313	146.5 million	146.5 million
Bilingual Education	138.0 million	138.0 million
National Institute of Handicapped Research	30.0 million	28.5 million
Student Financial Assistance	3.568 billion	3.566 billion
Guaranteed Student Loans	3.100 billion	3.073 billion
Adult Education	95.0 million	86.4 million

Apparently the Reagan administration still believes the Department of Education should be abolished and will continue to recommend this move. It is expected that Congress will pay little attention to this report from the president's advisory panel on financing elementary and secondary education.

Theatre production begins Feb. 25

The Theatre Arts Department's winter production will be Steven Berkoff's script of "Metamorphosis" based on the original story by Franz Kafka. Performance dates are Feb. 24-26 and March 4-5 in the Elstad Auditorium.

The play deals with Gregor Samsa, who woke up one morning and found that he had turned into a gigantic insect. It is about his struggle to become human again.

Tickets are \$2.50 for students and children (includes sign language students) and \$4.50 for all others. Tickets can be ordered by sending a check (payable to Gallaudet College

Theatre) and a stamped, self-addressed envelope to:

Box Office Manager
Box 2303
Gallaudet College

Tickets can also be ordered by calling x5605 voice or x5608 TDD.

Box Office hours are:

Feb. 14-18: 2-5 p.m.
Feb. 21-24: 2-5 p.m.
Feb. 25-26: 2-8 p.m.
Feb. 28, Mar. 1: 1-3, 2-5 p.m.
Mar. 4-5: 2-8 p.m.

Cued Speech session offered

For several years, Cued Speech has been one of the offerings of the Montgomery County Adult Education Program. The next session will begin Feb. 17 and run through April 14 (no class on March 31).

Classes will be held from 7:30-9:30 p.m. on Thursday evenings at Bethesda-Chevy Chase High School, 4301 East-West Highway, near Wisconsin Avenue. During the course, some basic orientation about Cued Speech and, depending on the enrollment, instruction at the beginner and intermediate levels will be given.

The cost of the session is \$22. Space permitting, non-Maryland residents will be welcome. The instructor is Nancy Tepper of Gallaudet's Office of Cued Speech Programs.

To register, bring your checkbook to the first class Feb. 17. For further information, contact Tepper in Cued Speech, x5527, or Georgia Lewis of Montgomery County Adult Education at 942-8304.

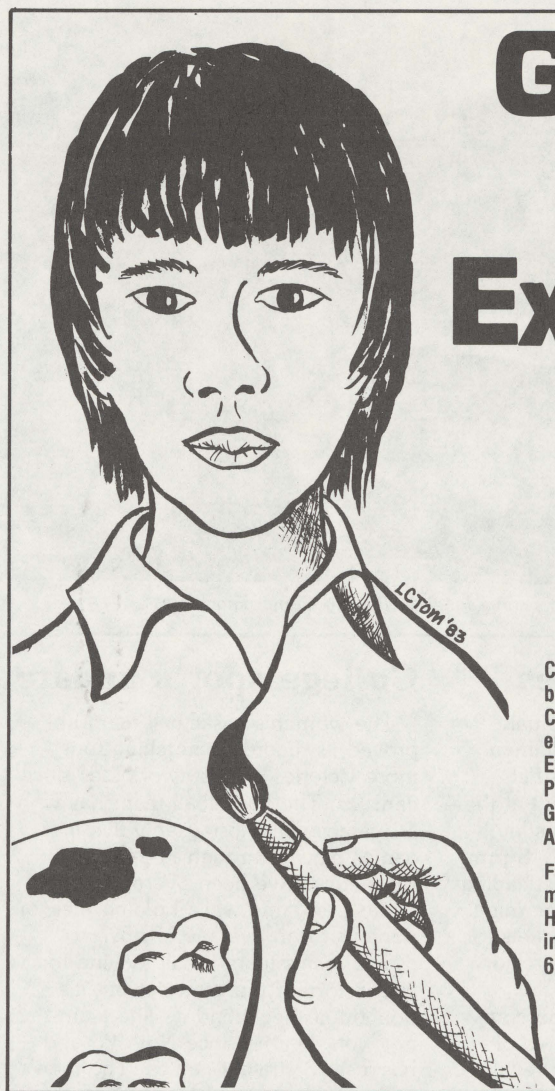

Since the method of instruction in this class is auditorily based, hearing impaired persons who are interested in Cued Speech should contact the Office of Cued Speech Programs at Gallaudet to make other arrangements.

GCAA Art Exhibit and Sale

April 5-9, 1983

Calling all deaf artists, hobbyists, members of the Gallaudet College community! Plan now to enter any of your works in the Exhibition of Art, Crafts, and Photography sponsored by the Gallaudet College Alumni Association.

For details, contact Flo Crammatte, chairperson; c/o Alumni House, Gallaudet College, Washington, DC 20002. TTY: (202) 651-5105.

MHHI program trains teachers

by Thomas W. Jones

Gallaudet's MHHI Teacher Preparation Program, which trains students to teach children with disabilities in addition to hearing impairment, is seeking state certification to enable MHHI (multihandicapped hearing impaired) majors to qualify for state teaching certificates.

Gallaudet's Education Department established the two-year graduate-level specialization in 1975. Since 1977, when the first class of students was graduated, 36 students have received degrees in this area. Ten students are presently enrolled in the program. Gallaudet's Education Department is one of only 11 programs in the country which have received approval in the multi-handicapped specialization from the Council on Education of the Deaf.

The program is based on the philosophy that the complex needs of MHHI children require especially skilled and enthusiastic teachers.

The need for teachers of MHHI children is growing rapidly. A recent report from the U.S. Department of Education indicates that 73,373 multihandicapped and deaf-blind children received special education services in the U.S. in 1980-81. Although the proportion of them with hearing impairment is uncertain, estimates of MHHI children with hearing impairments are as high as 21,000. According to the U.S. Department of Education report, 1,686 teachers of multihandicapped and deaf-blind children are needed in the U.S.

As the need for teachers of MHHI children has become more evident, Gallaudet's Department of Education has developed the program to meet needs in the field. Three areas of development are emphasized in the current program revision:

• **Certification.** In the past, MHHI

program graduates have been eligible for certification in the area of multihandicapped hearing impaired from the Council on Education of the Deaf. In addition, the present revision is designed to enable MHHI majors to qualify for two state teaching certificates: hearing impaired and multiple-handicapped. State certification is contingent on a favorable review planned for this next fall.

• **Range of Children's Needs.** The revised program is intended to prepare teachers for MHHI children with a variety of accompanying handicapping conditions and functioning levels. Course content includes educational implications of vision impairments, introduction to orientation and mobility (which includes six hours of being blindfolded), use of augmentive communication devices for children unable to use their hands and training in how to modify an academic curriculum for hearing impaired children with mild learning problems.

• **Practicum.** MHHI majors in the revised program participate in a structured, supervised practicum placement each of the four semesters they are in the program. Sites used this year include MSSD and KDES, Kilmer and Key Centers in Fairfax County (which serve severely and profoundly mentally retarded children, many of whom have hearing impairments), the multihandicapped preschool at Roosevelt Hospital in New York City, deaf-blind programs at the Maryland School for the Blind and Perkins School for the Blind, and schools for the deaf in Georgia, Maryland, Massachusetts and Pennsylvania.

For further information about the program, contact Thomas Jones, program coordinator, or Robert Mobley, acting chair, Department of Education, in Fowler Hall.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni and Public Relations.

MSSD sports notes

MSSD will host the 51st Annual ESDAA Boys Basketball Tournament and Cheerleading Competition Feb. 24-26. All games will be played at the Gallaudet Field House on Thursday, Friday and Saturday from 1:30-5 p.m. and 6:30-9:30 p.m. The Cheerleading Competition will be Saturday morning from 9 a.m.-noon. To order tickets for the tournament, call Athletic Director John Parker at x5963.

The boys basketball team had compiled a respectable 9-9 record as of Feb. 5. The Eagles have three regular games remaining before the Tri State Tournament Feb. 15-19.

The girls basketball team has an impressive 11-6 record. The team had a six game winning streak snapped by Immaculata on Feb. 3. The girls team will travel to Lexington School (NY) to participate in the ESDAA Girls Basketball Tournament Feb. 17-19.

The swimming team is enjoying its best season in five years with a 7-2-1 record. Head coach Pam Rush is enthusiastic about this year's coed team and believes the pre-season training sessions are paying off.

The wrestling team is having a difficult time pinning the opponents this year. The team has a 2-11 record in dual meets and placed 3rd, 4th, 5th and 7th in tournament competition.

GCRC sponsors basketball game

The Gallaudet Community Relations Council will be sponsoring its 3rd Annual Benefit Basketball Game on Saturday, Feb. 19 at 7 p.m. in the MSSD Gym.

Gallaudet staff, students and faculty will play the 4th and 5th District Police Departments. The 4th District Police Department was invited because the Northwest Campus is in that district.

The game will benefit the Gallaudet Chapter of the Council for Exceptional Children and the Near Northeast Meals On Wheels Program. The Kelly Miller Junior High Marching Lions will perform at half-time, and the KDES cheerleaders will entertain the audience. Door prizes will be given to winners who are present.

Tickets are \$1 for students and \$2 for adults and can be obtained from: LaVarne Hines, HMB 117, x5075. Donna Chitwood, Chapel Hall, x5100. Al Couthen, KDES, x5240. Twila Cavey Ness, MSSD, x5847. Bill Saunders, MSSD, x5881.

College sports update

The women's basketball team improved its record by notching four more victories against two losses since Jan. 25. The basketball team has won 14 games while losing only five in games played through Feb. 5. The Bisonettes have been averaging 69 points per game while holding their opponents to an average of 63.7.

The men's team is still looking for its first victory of the semester but it's doubtful if they'll find it. The team has not won a game since Nov. 23 and has lost 13 straight games. The men's overall record is 1-14 with five games remaining. The lone bright spot on the team is Daryl Wetzel's consistent 20 plus points per game.

The men's volleyball team swung into action Jan. 23 at the Frostburg State Tournament. Although the Bison won only two games while losing eight in the tourney, head coach Farley Warshaw was pleased with the players' overall performance. In the next outing, the team lost to George Mason University.

On Jan. 29, the Bison volleyball team hosted the Gallaudet Invitational Tournament and won eight games against two losses—good for second place in the tourney. The volleyball team, as of Jan. 29, had a 10-10 record in tournament play and 0-1 in head-to-head matches.

Among Ourselves

Marty Minter, assistant professor of Physical Education, has been selected as the head soccer coach for the U.S. team in the 1985 World Games for the Deaf to be held in Los Angeles, CA. He formerly served as the head soccer coach for the U.S. team in the Pan Am games held in Mexico City in 1980.

President Edward C. Merrill, Jr. was chosen to receive the 1982 Bruce G.

Eberwein Humanitarian Award from the Council for Crippled Children and Adults last December.

Susan Kozma, a first year graduate student in Rehabilitation Counseling, has been awarded a two-year full scholarship from Soroptimist International of Washington, D.C. The scholarship was recently established for a Gallaudet Rehabilitation Counseling student in good academic standing.

Ronald Eng, manager of Systems Management, has been selected to have his biographical sketch appear in *Who's Who in the East*, a companion volume to *Who's Who in America*.

Carolyn Ewoldt of the Research Institute gave the keynote address at the New Hampshire Conference for Teachers of the Deaf held Jan. 21 in Concord. She also gave a presentation on "Current Reading Research and its Application to the Hearing Impaired."

Several members of the Department of Physical Education and Athletics will present papers on health and sex education curricula for deaf students in both residential and mainstream settings at the Feb. 19 meeting of the American Association of Health, Physical Education, Recreation, and Dance in Providence, RI. Presenters include Ron Dreher, Maria Waters, Sharon Davis and Marty Minter.

Free lunch winners

Persons with the following Social Security numbers are entitled to a free lunch in the Alumni House during the week of Feb. 14-21. To claim your lunch, stop by the Alumni House or call x5277 voice or x5105 TDD.
